Jumping Rivers

Data Science Consultancy and Training

✉ hello@jumpingrivers.com  @jumping_uk

All things data science
Training
Machine learning, DevOps, infrastructure
Managed RStudio services
Dashboard development and deployment

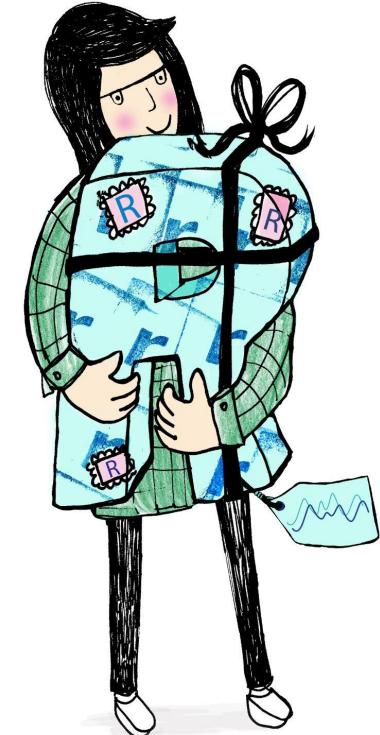

Would you list R on your dating profile?

How bilingual are you?

- Do you call yourself a R programmer or a Python programmer?
- Maybe something else?
- What does your C.V. say?

What does bilingual company look like?

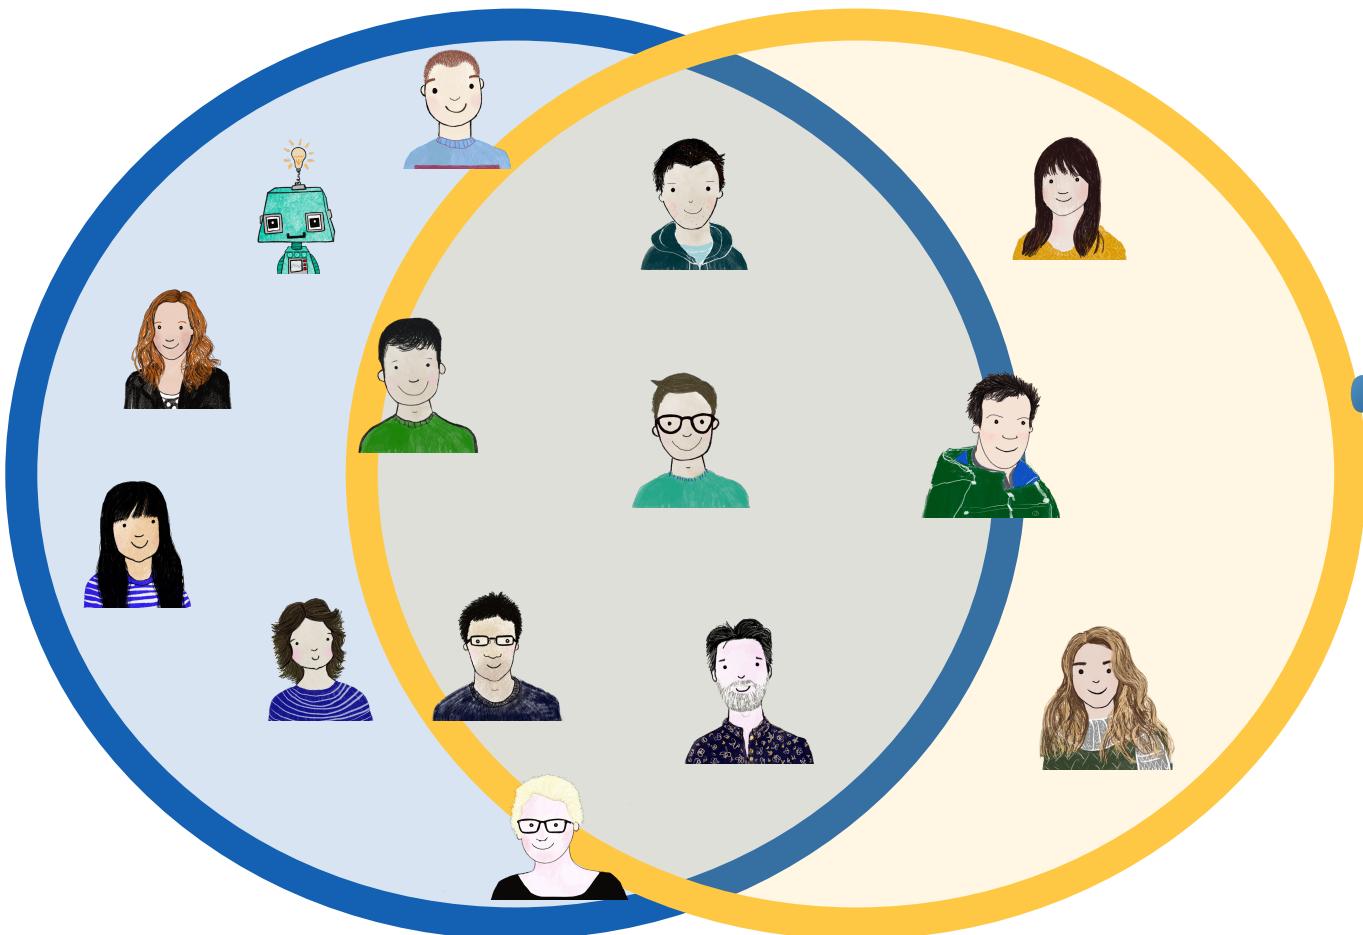

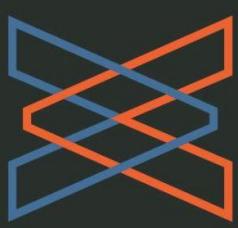

@jumping_uk

R

@jumping_uk 

positTM

Training Materials

- 30 R courses
- 10 python courses
- All notes use R Markdown
- Delivered via ~~RStudio~~
Posit Workbench

Diffify

- Compare R package versions
- Mostly written in Python
- Rpy2 package to call R code
 - `utils::news()`
 - `parseNamespaceFile()`

<https://diffify.com/>

Life at a bilingual company

- We like learning from each other
- Rules help avoid language wars
- Bilingualism influences the way we code and teach
- You are more than your language

Thank you
